DETAILED ACTION

Claim Objections

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 50-115 have been renumbered 47-112.

2. In applicant's response filed 8/6/01, applicant amended claims 50, 69, 74 and 100. These claims should have been identified as claims 47, 66, 71 and 97 in accordance with 37 CFR 1.126. Should applicant have any questions regarding this, the Examiner invites applicant to call.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-6, 8, 10, 11, 14, 17-25, 27, 38, 40-52, 54, 56, 57, 60, 63-71, 73, 83, 85-87, 89, 90, 92-94, 97, 98, 103 and 104 are rejected under 35 U.S.C. 102 (b) as being anticipated by Kurematsu et al. (5267029).

Kurematsu discloses (see figs. 1-3), as in claims 1-6, 8, 10, 11, 14, 17-25, 27, 38, 40-52, 54, 56, 57, 60, 63-71, 73, 83, 85-87, 89, 90, 92-94, 97, 98, 103 and 104, a light source (13) that

generates a light beam having at least two light components (S & P), an optics array (see figs. 1-3) which separates said light beam into at least one light component polarized differently than another light component, said optics array has at least one dichroic filter (11, 7), two polarizing beams splitters (3, 5), halve-wave plate (10), and liquid crystal panels (4, 6, 8), and Kurematsu further discloses the one light component and the another light component in the same beam (see the output beams having to polarizing components).

Response to Arguments

5. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

6. Claims 7, 9, 12, 13, 15, 16, 26, 28-31, 39, 43, 53, 55, 58, 59, 61, 62, 84, 88 and 91 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 32-37, 78-82, 95, 96, 99-102 and 105-112 are allowed.

8. The following is a statement of reasons for the indication of allowable subject matter: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 7, 9, 12, 13, 15, 16, 26, 28-37, 39, 43, 53, 55, 58, 59, 61, 62, 78-82, 84, 88, 91, 95, 96, 99-102 and 105-112, wherein an optical system comprises polarizing beam splitters

and a dichroic filters arranged in X-shaped configuration; a dichroic filter sandwiched between two quarter-wave plates, and a filter stack having a cholesteric filter mechanism, as claimed.

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claim(s) listed below, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The limitations of dependent claims 7, 9-13, 15, 16, 21, 22, 26 and 28-31 are objected to and are found to be allowable because the limitations cited therein combined with intervening claimed limitations are not taught by the prior art.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
